SAFETY PICKLE

Ref: TP134 U.N. NO. 3260

LQ24 Packing Group 111 6kg/24kg

Identification of Material

Product: Safety Pickle. White powder/flakes/spheres, light sulphur aroma.

Composition

Sodium hydrogen sulphate (a modified salt based predominantly on sodium bisulphate) The product is not corrosive if kept dry but in damp or wet conditions it readily absorbs water, forming an acidic liquid which is mildly corrosive when in contact with skin, eyes or by ingestion or inhalation.

Hazards Identification

1. INHALATION: Mildly corrosive if inhaled.
2. INGESTION: Can be mildly corrosive.
3. SKIN CONTACT: Can be mildly corrosive and cause skin ulceration and dermatitis.
4. EYE CONTACT: Can be mildly corrosive and cause corneal necrosis and conjunctivitis.

First Aid Measures

Skin contact: Wash off with soap and water.

Eye Contact: Irrigate immediately with copious amounts of plain water and seek medical attention if required.

Inhalation: Remove to fresh air.

Ingestion: Rinse mouth with water. Give plenty of water to drink.

Fire Fighting Measures

Not considered flammable. Extinguishing media dependent on other constituents of fire. May give off sulphur dioxide fumes, wear breathing apparatus.

Spillage/Disposal

No specific precautions required. Sweep up powder and collect in suitable container.

Handling and Storage

No special precautions required but when handling wear protective mask, gloves, goggles and non-absorbent clothing.
